How to take a
#quokkaselfie

How to take a #quokkaselfie

Get your smile and camera ready

Quokkas in the Settlement are friendly.
**Wait nearby and let them
come to you**

Quokkas are trusting, so plan your selfie carefully and **never touch or pat a quokka** as this could make you both sick

If they are camera shy, **don't tempt them with food or water**

Use a selfie stick to **maintain respectful distance**

No one loves a camera in their face all day. Once you've got your shot, be sure to sit back and spend some non-screen time with the quokkas

Remember they are a wild animal, and you are visiting their home

#quokkaselfie and share the love with your friends
